

PROCEDURES FOR APPLYING TRANSACTION CERTIFICATES IN TRACENET

Production

- Update actual yield farmer wise in the tracenet
- Request to CB for updating the closing stock.(Should be done within 3 months after harvest)
- Generate lot and apply for transaction certificate.

Processing & trade.

Stock Creation

For processing - create stock and inform the CB for Batch Approval .
For trader - create stock but not required lot approval from CB.

Stock created Deletion is allowed till 07 days from date of creation of Batch.

APPLICATION FOR TRANSACTION CERTIFICATE

Operator can source the materials directly from the created lot for TC application.

Documents to be submitted along with TC Application mentioned below

- 1.Invoice copy
- 2.Transport copy- Domestic TC only
- 3.Packing list
- 3.Source TC
- 4.Bill of lading- if it is Prov TC only shipping bill

You can apply for domestic TC and export TC.

- CBs issue Provisional TC before the consignment is shipped. Provision is being made on Tracenet for issuance of PTC before export.
- PTC accompany the consignment for verification at the Indian customs.
- After issuance of PTC the final TC has to be applied within 45days from the issued date of PTC.
- The Final TC will be issued to the exporter within 30 days from issuance of final AWB or Bill of Lading .
- After PTC is issued, the quantity of export will be deducted from stock.
- Exporter should provide the Final TC to importer/buyer NOT the PTC.

NOTE:

Farm products could be exported only through a processing or trade scope.Farm produce should be either processed or can export with a trade scope.
